Call for Participation
2022 CAP Implementation Workshop

Everbridge and Alert-Hub.Org CIC are co-hosting the 2022 Common Alerting Protocol (CAP) Implementation Workshop and Training in Amsterdam, Netherlands. The Workshop is 19 - 20 September, 09:00-17:00 CEST, at the KIT Royal Tropical Institute. The Training is 21 September, 09:00-17:00 CEST, at De Duif. Here is a short flyer about the Workshop and the Training. Click here to register. Further venue details and information for travelers is available here.

Both the Workshop and the Training will be conducted in person, with online Webinars for those who cannot participate in person. Webinar call-in instructions will be sent to all registered participants. Documents pertaining to the Workshop can be found at the Workshop website.

CAP, designated as ITU Recommendation X.1303, is recognized internationally as the key standard for societies to achieve all-hazards, all-media public alerting for emergencies. CAP Implementation Workshops provide a forum for implementers of CAP and associated organizations to discuss how best to expand adoption of the CAP standard and to share practices among users of the standard. There is no charge to participate and anyone interested in emergency alerting is welcome (managers, technical staff, media...), including governments, non-governmental and commercial organizations.

If you have CAP implementation experiences or insights to share, please let the Program Committee know that you want to give one of the presentations. You can contact the Program Committee by e-mail to the Chair: Eliot.J.Christian@gmail.com As usual, presentations will be limited to 20 minutes, plus 10 minutes for Q&A. Accepted presenters will be notified by 1 August 2022.

The 2022 CAP Implementation Workshop is co-sponsored by the International Association of Emergency Managers (IAEM), the International Federation of Red Cross and Red Crescent Societies (IFRC), the International Telecommunication Union (ITU), the OASIS standards organization, and the World Meteorological Organization (WMO).

Please share this note with discussions lists and individuals interested in emergency alerting.
